the wine list

coravin

We serve selected sparkling and still wines via Coravin here at The Taverners, meaning that you can enjoy exceptional wines without having to buy the whole bottle.

Coravin is a revolutionary device which allows us to pour wine from the bottle without actually opening it.

How does it work? A long, thin needle is inserted through the foil and cork, into the bottle. Argon – an inert gas – is then pumped through the needle, creating pressure which pushes wine back out through the needle. When removed, the cork re-seals itself meaning that the bottle can continue to be stored for a long time afterwards. Which wines? Just look for ‘Served via Coravin’ in the wine description.

bubbles
